RE: Physician OPPE Report

Dear Dr. Tyndall:

Attached you will find your physician profile for the time period between July 1, 2015 through December 31, 2015. This report is sent to all physicians on staff bi-annually in accordance with Joint Commission standard. The standard was designed to provide continuous evaluation of practitioner's performance by providing "Ongoing Professional Practice Evaluation" or OPPE. The OPPE reports are also included in your profile used during the reappointment process.

Each Department Chairman will review their own department members' profiles. Afterwards, a copy will be placed in your file within the Quality Management Department.

In order for you to evaluate your data, established benchmarks are also provided.

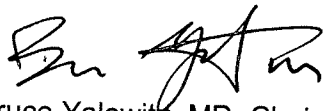

Results listed as n/p signify you have no patients for that measure during the specified time frame.

If you have any questions about this process, please feel free to contact the Quality Management Department Monday through Friday, 7:30 a.m. – 4:00 p.m. at 836-4567 or in-house extension 1543.

If you have any concerns regarding your data, please submit them in writing.

Thank you for your diligence in providing the best quality care to our patients.

Sincerely,

Bruce Yalowitz, MD, Chairman
Department of Surgery
